

“Devoted to Animal Health, Farmer's Wealth & Veterinarian's Dignity”

**A Rational Formulation for Management of MASTITIS**

# MASTINIX<sup>®</sup> POWDER

With 6g. Potassium Iodide & Vitamin C

**Indications :**

- Sudden drop in milk production
- Blood & Flakes in Milk
- Helps in dissolving fibrosis
- Fast recovery in clinical mastitis when given as an adjunct to antibiotic therapy

**Usage :**

50g. daily for 4-5 consecutive days

**Packing : 4 x 50g**

**For the control of Diarrhoea & Dysentery**

# QDIAR<sup>®</sup> BOLUS

Ofloxacin 900mg + Ornidazole 2500mg + Dicyclomine 50mg + Dimethicone 75mg

**Indications :**

- Diarrhoea of mixed origin
- Dysentery
- Abdominal pain (Colic)
- Urinary tract infections
- GI tract infections

**Usage :**

50g. daily for 4-5 consecutive days

**Packing : 10 x 4 Boli**

**For Rumen Specific yeast culture**

# Bovifur<sup>™</sup> Powder

Probiotic with Bypass Fat, Protein & Digestive Enzyme to improve Digestion & Milk Production

**Indications :**

- Indigestion • Impaction
- To increase milk production and fat%
- For proper feed digestion & utilization
- To increase the level of rumen microflora & fibre digestion
- For intestinal health & feed utilization
- For growth & weight gain

**Usage :**

Large Animal : 100g. BID  
Small Animal : 50g. BID

**Packing : 12 x 100g**

**For Rapid Onset of Ruminant Functions**

# FLORASACC<sup>®</sup> Bolus

Live yeast culture, Bovizyme, Propionibacterium, Freusenreichli & Amino Acid Feed Supplement

**With Choline Chloride & Nux Vomica**

**Indications :**

- Anorexia • Indigestion • Impaction • Ruminant atony
- Ruminant acidosis • Fatty Liver degeneration • Grains in faeces
- As supportive treatment with antibiotic therapy

**Usage :**

Large Animal : 2 Boli BID P.O.  
Small Animal : 1 Bolus BID P.O.  
In case of impaction 8 Boli stat or as directed by the veterinarian

**Packing : 10 x 4 Boli/Box**

**A Cure and prevention of vaginal & uterine prolapse**

# Lapsin<sup>™</sup> Powder

**Action :**

- Strengthens pelvic ligaments and broad ligament
- Gives support to the uterine musculature
- Tightens the vulvar sphincter Makes the pregnancy safe

**Indications :**

- Pre-partum & post-partum prolapse of vagina or uterus

**Usage :**

Cow & Buffalo : 1st day - 150g twice  
2nd & 3rd day - 100g with mustard oil & gram flour  
or as directed by the veterinarian

**Packing : 500g.**

**For increase milk production & easy letdown of milk**

# LEPTOCAL<sup>™</sup> Dispersible Bolus

Chelated Minerals, Vitamins with Powerful Galactagogue

**Indications :**

- Increases milk production
- Ensures letdown of milk
- Increases Lactation length
- Improves udder development
- Increases fat percentage of milk

**Usage :**

Large Animal : 1 Bolus BID P.O.  
Small Animal : ½ Bolus BID P.O.

**Packing : 20 Bolus**

**Analgesic & antipyretic with extra power & anti-oxidant property**

# Painac-D<sup>®</sup>

INJECTION & BOLUS

Piroxicam & Paracetamol

Amazing features of DMSO

## Indications :

- All type of acute & chronic inflammatory conditions
- Pain & fever associated with infections
- Pyrexia of unknown origin
- Post surgical conditions
- Head injury

## Dosage :

### Bolus :

Large Animals : 2 bolus once a day  
Small Animals : ½ to 1 bolus once a day

### Injection :

1 mL/25kg. body weight by IM route

**Packing : 10 x 4 Boli/Box**

**The Sure Cure of RTI, UGTI, GIT Infections, Skin & Soft Tissue Infections**

# L-Cin LA<sup>™</sup>

Levofloxacin 120mg/ml

**1<sup>st</sup>**  
time in INDIA

## Indications :

- Diarrhoea & dysentery
- Respiratory tract infections (Pneumonia & Bronchitis)
- Metritis & Pyometra
- Skin & Soft tissue infections
- Pyrexia

## Dosage :

Large Animals : 20-30ml by IM/IV  
Small Animals : 10-15ml by IM/IV  
or as directed by the veterinarian

**SINGLE SHOT TREATMENT**

**Packing : 30ml & 100ml**

**In Anorexia & Indigestion**

# Hipaliv<sup>™</sup>

Injection

With Extra Advantage of CHOLINE CHLORIDE

## Indications :

- Indigestion
- Non specific Anorexia
- Anaemia
- Fatty Liver Degeneration
- Ruminant Atony
- Supportive therapy along with antibiotics

## Usage :

Large Animal : 5-10 ml daily

Small Animal : 1-2 ml daily by deep Im route or as directed by the veterinarian

**Packing : 100ml**

**For the health of Liver, Better Digestion & Production**

# Hipaliv Plus<sup>™</sup>

Liver Tonic

## Indications :

- Anorexia & Indigestion
- Anaemia
- Poor growth & weak animals
- Stress
- After deworming
- Weight gain

## Usage :

Large Animal : 50ml BID P.O.

Small Animal : 10-20ml BID P.O.

Sheep & Goat : 15-20ml BID P.O.

Dogs : 6-10ml BID P.O.

or as directed by the veterinarian

**Packing : 5 Ltr., 1 Ltr., 500ml & 200ml**

**Safer, Swifter & Stronger Corticosteroid**

# ISOPRED<sup>™</sup>

Injection

Isoflupredone Acetate Injection Suspension 2mg/ml

## Indications :

- Ketosis
- Rheumatism
- Lameness
- Anorexia
- Depression
- Allergic reaction
- Infection & Toxicity Shock
- Pain & Inflammation

## Dosage :

Cattle & Buffaloes : 5-10ml (according to the size of the animal & severity of the condition)

The dose may be repeated in 24 hours if necessary

Horse : 2.5-10ml

Small Animal : 0.5-1ml per 10kg body weight

**Packing : 5ml & 10ml**

**Broad Spectrum Parasiticide**

# Helmicyde-DS<sup>®</sup>

Bolus

Levamisole HCl, Oxytoclozanide & Silymarin

## Indications :

- Gastrointestinal Worms
- Lung Worms
- Eye Worms (Theilezia Sp.)
- Liver Flukes
- Blood Worms (Horses)
- Heart Worms
- Warble Worms
- (Cutaneous larva migrans)
- Nasal Schistosomiasis

## Dosage :

Large Animal : Single Bolus

or as directed by the veterinarian

**Packing : 1 x 10 Boli/Box**

Answer to the challenging bacterial infections

## Cefnix-Tazo<sup>TM</sup> INJECTION

Ceftriaxone 500mg & Tazobactam 62.5mg  
Ceftriaxone 4gm & Tazobactam 500mg

**Sure Weapon against gram+ve, gram-ve, aerobes & anaerobes including ESBLs**

### Indications :

- Mastitis & Nephritis
- Hemorrhagic septicemia
- Bronchopneumonia (RTI)
- Metritis, Cystitis, Urethritis & UGTI
- Musculoskeletal Infections
- Surgical Infections
- Pre-operative prophylaxis & Post-

### Dosage :

5-10mg/kg. body wt. or depending upon severity of infections by IM/IV route or as directed by the Veterinarian.

**Packing : 562.5mg & 4.5 g Injection**

Revolution in Mastitis therapy

## CEFNIX FORTE-4.5 g. INJECTION

Cefoperazone & Sulbactam 4.5g

**Ideal fighter against Mastitis**

### Indications :

- Acute & Chronic Mastitis
- RTI
- Intra-abdominal infection
- Pyrexia

### Dosage :

5-10mg/kg body wt. or depending upon severity of infections by IM/IV route or as directed by the veterinarian

**Packing : 4.5g Injection**

**Broad Spectrum, Potent, Third Generation Cephalosporin**

## Cefnix-4<sup>TM</sup> Injection

Ceftrixone 3g & 4g

### Indications :

- Mastitis
- Pneumonia
- Surgical Interventions
- Septicemia (Bacterial)
- Meningitis
- Pyrexia

### Usage :

5-10 mg/kg body wt. or depending upon severity of infections by IM/IV route or as directed by the veterinarian

**Packing : 3g & 4g Injection**

**Third Generation Broad Spectrum, Potent & Bactericidal Fluroquinolone**

## L-Cin<sup>TM</sup> Injection

Levofloxacin 100mg/ml

### Indications :

- Diarrhoea & dysentery
- Respiratory tract infections (Pneumonia & Bronchitis)
- Metritis & Pyometra
- Skin & Soft tissue infections
- Pyrexia

### Dosage :

**Large Animal :** 20-30ml by IM/IV  
**Small Animal :** 10-15ml by IM/IV or as directed by the veterinarian

**Packing : 30ml & 100ml**

**For better health & development of udder**

## Dhenu-H<sup>®</sup> Multivitamin Supplement

### Indications :

- Repairs & Rejuvenates udder tissues
- Exerts antioxidant effect
- Stimulates better egg production & improves hatchability
- Improves immunity & removes stress
- For shiny haircoat & prevent hairfall

### Dosage :

**Large Animal :** 10ml daily  
**Small Animal :** 5ml daily  
**Dogs/Cats :** 2-3ml daily  
**Chicks :** 7ml/100 birds  
**Layers :** 10ml/100 birds

**Packing : 100ml, 250ml & 1 Ltr.**

**Excellent broad spectrum wormicide**

## Helmicyde<sup>®</sup> Suspension

Oxyclozanide 60mg, Levamisol HCl 30mg & Silymarin 4mg

### Indications :

For the control & treatment of GIT & Pulmonary nematodes infestation & chronic fascioliasis in cattle & buffalo

- Effective against all stages of major endoparasites
- Safe in pregnancy

### Dosage : (Injection)

1ml/4kg of body wt.  
Repeat dose after 2-4 weeks

**Packing : 30ml, 90ml & 1 Ltr.**

Different Needs One Solution ...

## Phosvet<sup>®</sup> Injection & Bolus

Butaphosphan & Methylcobalamin

### Indications :

- Metabolic disorders like Ketosis, Milk Fever
- Infertility and puerperal diseases
- Phosphorus deficient cases : Pica, Red Water Fever, Arthritis like syndrome • Weakness and anemia
- Muscular activity • Stress & Reduced feed intake (Anorexia)
- Disease recovery (convalescence)

### Dosage :

**Horse, Cattle, Camel :** 10-25ml

**Foal, Calf :** 5-12ml

**Sheep, Goat :** 2.5-8ml

**Lamb :** 1.5-2.5ml

**Pig :** 2.5-10ml & Dog, Cat : 0.5-2.5ml

or as directed by the veterinarian

**Packing : 30ml, 100ml Vial & 10x2 Boli**

Potent Antioxidant & Immunomodulator

## Ascorvet<sup>™</sup> Injection

Ascorbic Acid 250mg/ml

Vitamin C with Multifarious Applications

### Indications :

- Antioxidant during stressful condition
- Potentiate immune status
- Supportive therapy in mastitis
- Bleeding (Haemostatic)
- Haemoglobinuria • Heat stroke

### Dosage :

**Dogs & Cats :** 2-3ml

**Calves :** 5ml

**Large Animals :** 20-30ml

(In Haemoglobinuria 60ml)

by IM/IV/SC route

or as directed by the veterinarian

**Packing : 30ml & 100ml**

Heat inducer & fertility enhancer

## BREED-UP<sup>™</sup> Tablets

Clomiphene Citrate 500mg & Copper Sulphate 750mg

### Indications :

- Anoestrus
- Silent estrus
- Repeat breeding (Anovulation or delayed ovulation)
- Improves conception rate

### Dosage :

1 Strip daily upto 5 days

or as directed by the veterinarian

**Packing : 3x5 Tablet/Box**

Overcome the calcium deficiency & increase the milk output

## LEPTOCAL<sup>™</sup> Gold Liquid

Symbol of Quality

### Indications :

- Increases milk production
- Maintains appetite, health & digestion
- Ensures letdown of milk
- Improves energy level
- Prevents hypocalcaemia/milk fever
- Prevents complications of calving such as milk fever, retention of foetal membranes

### Usage :

**Large Animal :** 50-100ml daily

**Small Animal :** 30-50ml daily

or as directed by the veterinarian

**Packing : 20 Ltr., 5 Ltr., 2 Ltr. & 1 Ltr.**

Excellence in Health, Production & Reproduction

## Shaktimin<sup>®</sup> Chelated Organic Minerals & Vitamins Feed Supplement

Methochelated Gold With Grass Flavour

### Indications :

- Anoestrus
- Deficiency of Vitamins & Minerals
- Hypogalactia & Agalactia
- Weakness & Debility
- Poor immunity

### Mixing Ratio :

**Cow & Buffalo :** 30-50g P.O. per day for maintenance, growth & better milk production

**Calf / Sheep / Goat :** 15-25g P.O. per day for better growth.

**Pig :** 25-30g P.O. per day for better weight gain & maintenance

**Horse :** 50g P.O. per day or 1-2kg mixed in 100kg feed

**Packing : 1.5, 10 & 25kg**

NSAID with the property of elimination of endotoxins

## Maglin<sup>™</sup> Injection

Flunixin Meglumine 83mg/ml

### Indications :

- Visceral pain (Colic)
- Inflammation in endotoxemia as in Mastitis, Metritis, Enteritis & pneumonia etc. • Musculo-skeletal disorder • Lameness
- Pyrexia (Fever) • Post surgical • Calf Scour (Diarrhoea)
- Straining & Prolapse

### Dosage :

**Cattle, Buffalo, Camel, Sheep & Goat :**

2 ml/45 kg b.wt for 3-5 days

**Horse :** 1 ml/45 kg b.wt for 3-5 days

**Dog :** 0.5 ml/25 kg b.wt for 3-5 days

**Cat :** 1 ml/25 kg b.wt for 3-5 days

**Pig :** 1-2 ml/50 kg by slow I.V / I.M / S.C

or as directed by the veterinarian

**Packing : 20ml & 100ml Vial**

The Powerful and Ecofriendly  
Herbal Antiseptic Spray

# Septiban<sup>®</sup> Spray

## Indications :

- Non irritant, non allergic • Fly repellent
- Destroys pyogenic membrane antiseptic
- Antifungal & Antiviral Kills maggots

## Usage :

Spray on the affected area 3-4 time a day

Packing : 100ml & 200ml

Powerful tick, lice, mosquito, fly killer & repellent

# QTIK<sup>™</sup> Spray

## Indications :

- Ticks & Lice infestation
- Both types of mange (Superficial & deep)
- Parasitic dermatitis

Spray directly on the site of ticks & lice infestation. Spray on the animal body at 4-5 sites during peak hrs. of mosquitoes & fly attack.

Packing : 100ml & 50ml

For the Quick expulsion of Placenta &  
Health of Uterus

# UTRONIX<sup>®</sup> Uterine Tonic & Ecbolic

## Indications :

- Retention of Placenta (ROP)
- Uterine infections like Metritis & Pyometra etc.
- Irregular lochial discharge
- Delayed involution of uterus
- Low Milk Yield • Repeat Breeders
- For Early Post Partum Estrus

## Usage :

In case of ROP 250ml P.O. repeat after 2 hours In case of Metritis 100ml BID P.O. for 5 days or as directed by the veterinarian

Packing : 500ml & 1 Ltr

More milk for longer time

# LEPTOCAL<sup>™</sup> Liquid Platinum

Mango Flavour

## Indications :

- To improving the milk production
- To improve the growth rate in young ones
- To prevent milk-fever, rickets, pica, osteomalacia, osteoporosis
- To prevent calcium & phosphorus deficiency during pregnancy & lactation
- For prevention of mineral deficiency in animals
- Help form strong bones thick shelled eggs
- Asparagus racemosus & Leptadenia reticulata stimulates glandular functions & help letting down naturally

## Usage :

Large Animal : 50ml daily  
Small Animal : 30ml daily  
or as directed by the veterinarian

Packing : 1 Ltr., 6 Ltr., & 20 Ltr.

Rational & highly effective formulation to  
combat heat stress & to boost up immunity

# COOLRAS<sup>®</sup> Liquid

## Indications :

- Acts as antioxidant and removes stress.
- Optimise body electrolytes & maintain body fluid.
- Lowers down body temperature as sea flora acts as natural refrigerant. • Corrects alkalosis.
- Provides extra calcium & phosphorus.
- Provides instant energy. • Boost up Immunity.
- Increase production and fertility of the animal.

## Dosage :

Large Animal : 100-200ml twice a day  
Calf & Small Animal : 25-50ml twice a day  
by oral route  
Poultry : (Layer) 10ml/100 birds  
Broiler : 5ml/100 birds in drinking water

Packing : 1Ltr.

Mixed uterine infection need  
a wide spectrum of action

With Power of Urea

# Utronix<sup>®</sup> I.U

Each mL contains: Levofloxacin 20 mg + Ornidazole 40 mg + Urea 500 mg + Alpha Tocopherol 5 mg + q.s

## Indications :

- Irregular Lochial Discharge
- Delayed Involution of Uterus
- Abortion
- Metritis
- Repeat Breeding
- Retained Placenta

## Dosage :

As directed by Veterinarian

Packing : 60ml.
